CLARESHOLM LOCAL NEWS

Be sure to get your Chautauqua season ticket before the opening day.

What about a cathinupian and auto parade on July 1? Think it over.

Mr. H. G. Stephens of New York City is visiting at the home of H. C. Pine.

Marguerite Clark in "All of a Sudden Peggy" at the Rex next Monday and Tuesday.

A. McKinney returned on Monday from the coast where he had spent the past two weeks.

Carl Braren was at Banff last week attending the annual meeting of the Masonic Grand Lodge of Alberta.

On Tuesday evening Claresholm played baseball at Staveley, the score being 7 to 5 in Claresholm's favor.

L. T. Torgersen, an old timer who left some time ago for the north country, has been renewing acquaintances in town.

Union meetings between the Presbyterian and Methodist churches have been arranged for the months of July and August.

J. B. Boese, Carl Braren and A. H. Swain motored to Lethbridge on Wednesday to attend Knights of Pythias grand lodge.

Miss Dixie Fair of Calgary has been the guest of her sister Miss Fair during the past week. She left for her home on Thursday afternoon.

The census has now been completed as far as the enumerators know. If anyone has been overlooked it is his duty to report at once to the enumerator.

The editor, F. H. Schooley returned on Tuesday from attending the annual meeting of the Canadian Weekly Newspapers Association at Vancouver.

All Chautauqua season tickets must be bought before the opening day to take advantage of the \$3.00 rate. Tickets will cost you more after Chautauqua opens.

A patriotic service will be held in the Chautauqua tent on Sunday, June 20th at 7:30 p.m. The children of the Methodist and Presbyterian Sunday schools will take part.

C. W. Stewart has been on the sick list most of the week and has been unable to attend to his business. Harvey Stewart is looking after the warehouse during his absence.

An interesting baseball match between Claresholm and Macleod was played off here on Wednesday afternoon. There was some excellent playing by both teams. Claresholm came out the winner.

J. M. Soby has started a big unloading sale. It is about 12 years since his last sale and the announcement came as a surprise. There has been a big rush all the week for the startling bargains.

Grasshoppers have been very plentiful during the past week all through this district. A large quantity of poison has been put out by the farmers and it looks as if they are getting them under control.

For the first time in twelve years Dominion Day is to be celebrated in Claresholm. Barons will play Claresholm at baseball and there will be horse races, athletic events and buck-jumping. For program apply J. R. Watt.

There have been nice showers this week, but more rain would be very beneficial in this district. Some of the grain was showing the effects of the dry spell. Grain is now from 6 to 12 inches in height. Frost on Wednesday morning did some damage to tender garden stuff.

The Odd Fellows of Claresholm observed Wednesday as their annual memorial day. In the afternoon a number of the members of Foothills Lodge fixed up the graves of departed Odd Fellows at the cemetery and planted flowers there. Several other people also made use of the occasion to improve the appearance of the cemetery in the same manner.

We take pleasure in reporting that the Children's Missionary program, Sunday, June 12th, was a splendid success. The hall was full to the door, and an offering of \$86.75 proved that the people were far from unconcerned about the need of the foreign field. The spirit of the meeting, also, was such that we felt sure of the approval of Him who said, "Inasmuch as ye did it unto one of the least of these my brethren, ye did it unto me."—Pastor, Nazarene Church.

The report of the delegates to the W. M. S. convention which was held at Calgary last week was given in the Methodist church last Wednesday night. Mrs. Locke, Mrs. Peck and Miss Violet Boniface each gave interesting reports showing the stupendous and valuable work that is being carried on in China and Japan as well as the home field by the organization. The attendance was not as large as it should have been, but a very pleasant and profitable evening was spent. The senior girls' mission circle treated the audience to ice cream and cake in Harrison Hall at the close of the meeting.

CALGARY EXHIBITION

In the program which will be presented at the 1921 Exhibition, to be held June 30 to July 8, the management considers it has the highest class and most entertaining features that have ever been secured for the Calgary Exhibition.

An attraction which will undoubtedly be the most popular for many years is the musical festival choir of 200 voices, composed of the five Calgary choirs which competed in the recent Alberta Musical Festival. The choral work at this festival was so good that one of the adjudicators, Dr. W. H. Hall, professor of choral singing at Columbia University, New York, said "the choral work at this festival has reached the highest mark I have ever heard in choral work on this continent."

A forty-five minute concert will be given each evening by the massed choir, accompanied by a thirty piece orchestra, which will include solos and other special numbers in addition to the choral numbers.

Another feature which will delight all Exhibition patrons, young and old, will be the fireworks. A remarkable display of aerial fireworks will be given and in addition a reproduction of the Naval Battle at Dover. This will be given each evening following the regular platform program, which in itself would constitute a wonderful evening's entertainment.

The live stock and industrial exhibits this year promise to be exceptionally good, and the prospects are particularly bright for the best Exhibition that has ever been held in Calgary.

The Claresholm Chautauqua Players
Claresholm Chautauqua, June 21 to 27.

LETTERS TO THE EDITOR

Clareholm, June 6, 1921
Editor Review—

I am going to ask you to publish this letter in your paper in the interests of the business men of the town.

I understand that a meeting was called some time ago to organize a Board of Trade which I understand was in existence some time ago and which had died out for lack of support. I also am led to believe that the committee that was appointed at the meeting has also died out. Mr. Editor, I have not been very long in this town but I think that it is a shame that this matter could not have been kept before the business men of the town until it is made a going concern—as it were. I have been told that at the first meeting the representation of business men was disappointing and that this is the reason why the organization has died down. We have in this town, apparently, a bunch of business men that are for themselves, and they are very slack as to the interests of the town. I came from a town that is not the size of Clareholm and the business men of that town all put their time and energy in organizing a board of trade which is a credit to that town today.

Another thing that I have noticed in Clareholm is, that the average merchant is not content with looking after his own business, but it seems that he must handle some line of goods that is or should not be in conjunction with his particular line of business. I, Mr. Editor, am not referring to any particular party, but I have noticed in coming to Clareholm that for instance the insurance business is represented by the greater part of the merchants. It does not seem fair that when a man is trying to make an honest living in a town that some cheap insurance company can come along and peddle their supplies to a party who has a side line of insurance, but whose business is entirely out of line with insurance. This, Mr. Editor, is the greatest loss to the town will get together in a more harmonious spirit and get the Board of Trade organized.

Thanking you for your valuable space, I am
Yours truly,
Citizen.

LOST

One sorrel gelding, weight about 1300, white strip in face, two white front feet and one white hind foot, branded as cut on left thigh. Reward for his return or information leading to his recovery.
T. E. Chilton, Clareholm.

STRAYED

Strayed from 11 miles east of town, 4 head of work horses—1 roan mare, 1 bay mare, 1 black gelding, 1 brown gelding, all branded **GW** on left thigh. Reward of \$2.50 per head for information leading to recovery.
C. H. Curtis, Phone R510.

POUND NOTICE

To Whom the Same May Concern: Notice is hereby given under Section 30 of the Domestic Animals Act that 1 sorrel gelding age about 17, weight about 1250, branded on left shoulder; 1 dark bay mare age about 13, weight about 1200, branded on left shoulder and same on left hip; 1 grey gelding age about 13, weight about 1000, branded (blotched) on left hip; were impounded in the pound kept by the undersigned on the S.W. quarter section 27, township 11, range 26 west of the 4th meridian, on Tuesday, the 31st day of May 1921.

Lumber Is Down

Yes, lumber is down—down to where a farmer can afford to build anything that can be made of lumber, even in the face of a low market on farm products.

Lumber was the last commodity to go up and the first to come down.

TODAY LUMBER PRICES

are down to where it is hard to see how they can go any lower.

BARN OR HOUSE

or just some boards for fixing up around the place, the facts about lumber will appeal to any man or woman who believes in thrift and knows values.

COME IN TODAY

and talk over your practical problems. We want to be helpful, and we welcome an opportunity to show you.

Clareholm Local News

Barber's ad for this week is designed by Jessie Salmon.

W. B. McConkey returned on Tuesday from a visit to Olds.

High School Inspector Smith, of Edmonton, was here this week.

Frank Powell's father arrived Tuesday from Lethbridge for a visit with him.

The Chautauqua afternoon meetings will start at 3:30 this year instead of 3 o'clock as heretofore.

On Wednesday afternoon last week Macleod won a basketball game here over Clareholm by a large score.

The ladies of the Presbyterian Aid will serve refreshments at the Chautauqua tent on Tuesday, Wednesday and Thursday, afternoon and evening.

Chas. Lawrence has taken a contract to break up several hundred acres of land in the Pincho Creek district and will move his outfit down next week.

Remember there is a worth while saving in purchasing your Chautauqua season ticket before the opening day. Don't put it off till the last minute. Better do it now.

The Chautauqua opens here next Tuesday. Tickets are selling well and it looks like a successful Chautauqua. The big tent is expected on Monday morning. Miss Buck, who is in charge of the Junior Chautauqua work on this circuit arrived on Wednesday and is busy organizing the young people. She wants to meet all the boys and girls on the tent grounds every evening between 7 and 8 o'clock.

Clareholm Students Win Prizes

The following students of the School of Agriculture, Clareholm, are to be congratulated on winning the prizes offered by the Western Retail Lumbermen's Association of Winnipeg.

For the best drawing and most practical plan of a farm barn for the average quarter or half section farmer:

W. S. Backman, first prize, \$1200; D. C. Volk, second prize, \$700; D. C. Folk, third prize, \$400; R. J. McComber, fourth prize, \$2400.

For the best drawing and most practical farm kitchen of average size:

Miss Ora M. Walker, first prize, \$1200; Miss Alma M. Walker, second prize, \$700.

The gold medal, given by Principal J. C. Hooper for general proficiency in second-year work was won by W. S. Backman.

BUSINESS LOCALS

For Sale—About 3000 feet of second hand lumber. Apply J. R. Watt, Secretary Clareholm Park Association.

Pasture—Can pasture a limited number of cattle and horses. The best of grass and lots of water. Address Box 28, Cowley, Alberta.

For Sale—9 roomed house on 10 acre lot, close to school, drilled well, land seeded into green grass.—J. Elverum, Clareholm.

Protect your family with a good life insurance policy. The New York Mutual is the oldest and safest company doing business on the continent. Fraser & Peck are the Clareholm agents.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of Herbert Peters, late of Clareholm, Farmer, deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Herbert Peters who died on the 26th day of February A. D. 1921, are required to file with the undersigned by the 8th day of August 1921, a full statement duly verified of their claims and of any securities held by them, and that after that date the administratrix will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 10th day of June, 1921.

**Not How Many Hours Did He Devote to the Job
Not How Hard Did He Work
But How Many Acres Did He Plow**

Not how long a time was taken, nor how much hard work was done—but what was accomplished? Results count! It takes one man a whole day to plow a stated number of acres and another a half-day. The man who plows these acres in half the time is producing results. The other is working hard but wasting time. Don't figure the results of your labor on the basis of so much time and so much hard work—BETTER FIGURE WHAT IS BEING ACCOMPLISHED.

**Power Farming Reduces Labor Costs**

With a Fixed Market Price Lower
Labor Costs Mean Greater Profits

Wheat has a fixed valuation. On the face, then, 200 bushels of wheat would bring you no greater net less profits than your neighbor's 200 bushels. But if these 200 bushels like the plowed field have taken one-half less of your time you can plow will be twice those of your neighbor. Time saved is money earned. A Fordson Tractor saves 75% of your production costs, conserves labor. By using the Belt Pulley Attachment the Fordson Tractor has a range of over 100 uses. It is an ever-ready servant that will furnish the necessary power for harvesting the crops to lighting the home.

Agents for Oliver Special Plows, Roderick Lean Mower Attachment, Automatic Engine Dies and Special Harrows. These implements specially recommended by Ford Motor Co. for the Fordson Tractor.

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By O-G-MAS-ES (Little Chief).

(Copyrighted)

On looking over my last article it may be that my readers will be left with the impression that Chief Factor Archie McDonald was a tyrant, unjust man, but this was by no means the case. Yet, however, must understand that Hudson's Bay officers in charge of districts at this time had practically absolute powers. Truly, Canada had taken over the country, but her jurisdiction for all practical purposes ended when you left Fort Garry (now Winnipeg), and in the great realm of the Northwest the H. B. Co. ruled supreme. They had jails at many of their head posts, with handcuffs and leg irons for unruly servants, or law-breaking Indians, and they used them when necessary. Give absolute authority to any man and he is apt to become more or less of a despot. Shortly after leaving the Hudson's Bay service in 1883, and being at that time in poor health and circumstances, Mr. Archie McDonald was exceedingly ill and helped me to get a start on my own account.

To resume our trip across the plains. The rate of progress daily was governed by that of the load carts, which equals from the load carts could be heard for miles, in spite of constant applications of grease. From twenty to thirty miles daily was a fair average and one must know that the ponies subsisted entirely on grass, as oats were unknown in the wild. Upon the men would start with the carts very early in the morning, while the bourgeois and us took breakfast much later and easily catch up with the train for dinner. Ahead of the party rode Chief Guide John Hummer, generally, when on his side, thirsting to imbibe all the plainsman's lore possible, and sometimes the other clerks were with us. Armed guards had to be set nightly, and the horses watched very carefully, for stealing was rare, and no doubt our large brigade was much upon time to time by scouting Indians. The prairie was covered with fresh buffalo sign and the guide's opinion was that large herd was just to the south of us. In fact a few old bulls were sighted by our riders, but Mr. Even would not allow any hunting for fear of losing or injuring the horses, so much to the disgust of our younger men who were all anxious to shoot a buffalo.

About the tenth day out met a small war party of Saulteaux coming from the great plains to the southwest, on route to Fort Qu'Appelle. They met us all marching in a line, with drums beating, their headmen rigged out in scarlet cloth and feathers, galloping in front of us. The usual shake hands and a smoke, then small presents were handed to them by Mr. McDonald and, in return, we received a welcome to the country. Young buffalo meat just killed the day before. They had no carts, only travois, that is the horse-drawn travois, then lashed on each side of a pony, a parchment laced across behind the horse and on the robes, dressed but false leather, dried meat and pemican were piled, even their little spare carts were laden in the same way. With the exception of a violent windstorm that made them live for a while, nothing of importance happened until we reached the south branch of the Saskatchewan, and here we had some fun in crossing the river, there being no ferry. We made rafts of the large wooden cart wheels over which buffalo parchments were laced

securely, and in the centre of these rude rafts were placed the women and children, all baggage, freight, etc. Summer was the motive power, and I could not say how many times I crossed the river. The large band of ponies was left to the last and I found Homme and I took them across, he explaining that on no account must we allow them to circle, but keep them going in a direct course, the remedy if one turned back to splash water in their faces. All went well but it took several days before the whole outfit was safely across. Another day's travel took us to Fort Carlton, which, unlike Ellis, was a headquarters. The fort was on the North Branch, close to the river, we arriving there without the loss of a pony or a pound of freight, much to the satisfaction of Chief Factor Lawrence Clark who ruled supreme over the Saskatchewan district with Carlton as headquarters. The fort was on the same plain as Ellis, but in better order. This fine establishment was burnt in 1883 by accident, as the Mounted Police and Volunteers were evacuating it, after the defeat at Duck Lake.

I was detailed to lead a hand in the trading and daily my erstwhile company left for their various destinations. Some days after my arrival a packet arrived by canoe from Cumberland House (down the river), and that evening I was summoned to the office, where, in addition to Mr. Petchen, Ont. and was met by Robert Hamilton. They informed me there was a pressing vacancy at Cumberland, and they were considering the changing my appointment to Mackenzie River to that point, but they would like to hear my views. It was all one to me, and so I told them, and it was then decided that I go down the river on the first opportunity. Mr. Hamilton, who came from Petchen, Ont. and was an old friend of my father's, gave me much wise and kindly advice as to my future in the service where he had spent practically his life time.

Several weeks passed in very pleasant company as Mr. Clarke had a lovely daughter and there were several other ladies at the fort. Peckish duck shooting and boating were the principal amusements and, as birds were scarce, the shooting was very hard. A York boat arrived from up the river, and I received orders to embark next morning. The crew were Red River half-breeds and I took up my place in the stern sheets after saying good-bye to all round. We went about 85 required in that locality, which is quite an extensive sheet of water, and in a few minutes more we were at the wharf of the historic Cumberland House, which, it is said, was the first post established by the Hudson's Bay Company on the Saskatchewan River. Here a mild superior Factor Horace Belanger, a French-Canadian, a man of great spirit and jovial temperament, very widely known and much liked. He was a half-brother of Letellier de St. Just, at one time Lieutenant-Governor of the province of Quebec.

Big Campaign

Planned For Oil Fields

Many drilling outfits will operate in Alberta.

Before the middle of the summer has been reached, it is estimated that more than fifty modern oil drilling outfits will be operating at various points in Alberta in the big campaign that is being planned for this year by the Imperial Oil Co. and other large concerns to test out the potential oil fields of the province.

Plans have been developing within the last month or two in Calgary which will see very large oil and gas companies in the field with the most modern class of drilling rigs, in addition to the Imperial Oil Company, which expects to have nearly twenty rigs working in various parts of the province and the district north of the Athabasca.

Some of these operations will be in the Pincher Creek district where very favorable oil showings have been uncovered. Other operations will be in the district south of Lethbridge, near the Montana border, where already one or two wells have been drilled. Other rigs are to be put into the Nanton field while the Irma district, east of Edmonton, has also attracted very wide attention.

What Makes Britain Great

People Always "Carry On" In Spite Of Difficulties.

The way in which the British Government is dealing with the huge financial obligations entailed by the war is an example to the nations. The statement made by Austen Chamberlain, late chancellor of the exchequer, enables one to realize to some extent what the mother country is accomplishing. Last year the national debt was reduced from £7,820,000,000 to £7,573,000,000—a reduction, which represents more than ten million and a quarter dollars. In the foreign debt alone the reduction was £117,154,000. The debt to the United States was cut down by £27,500,000 and £20,000,000 was taken off the debt owed to Canada. The debts to other countries were wiped out. In the last two years the nation's external debt has been reduced £203,000,000, or about a billion dollars.

This has been accomplished by means of very heavy taxation, and in spite of the fact that the government is contending for the repair of a large number of locomotives for railways in Russia. This contract alone is estimated to provide employment for about two thousand men for some years, and since it has been awarded the same firm has secured an order for two hundred locomotives for the Belgian State Railways. A striking feature of this new order is that it was secured in the face of the keenest foreign competition. Success has been achieved on account not only of the moderate price quoted, but in view of the superior quality of British locomotives for efficiency and reliability.

Remedy For Diseased Potatoes

Select Healthy Seed and Plant on New Ground.

Potatoes become affected with scabs through a spore which first attacks the young sprouts, turning them into a mass of rot. This is followed by the formation of small scales, which in due time increase in size and grow into each other almost enveloping the tuber. It really does not hurt the potato for table use except that a greater amount of time must be peddled away before using.

The remedy is to burn the diseased tubers, and in the selecting of "seed" the healthy tubers should be well sprinkled with flowers of sulphur, care being taken to get it well into the eyes of the potatoes. We would advise 400 lbs. of sulphur to a ton of seed that have previously been diseased potatoes; do not use them. Never use the same ground, since you have grown diseased potatoes on.

U.S. Farmers Looking For Land.

Considerable areas of land belong to the United States Pacific Railroad near Vermilion have been purchased this spring and are being broken up. One deal of importance was that in which J. J. Leff, of Montreal, secured 1,000 acres, upon which he will engage in mixed farming. Many United States farmers are in the country looking over improved holdings and raw lands.

The First Hoe

Primitive Man Used Limb of Tree With Sharp Crook.

The hoe is probably one of the oldest of agricultural implements. When primitive man found a well-furnished limb of a tree with a sharp crook he had a hoe for the cutting, and it was with such hoes as these that the Iron Age farmer tilled his fields of corn, and prepared the soil for the planting. There probably was not much "hilling-up" done and less weed cutting. There is a little, for effort was made to keep the weeds down until the corn was high enough to shade the ground. Hoeing was soon finished, and the crop was left to itself until the ears were filling, when the children were sent out to the field to scare the birds away. Farmers today know what damage a flock of blackbirds will do in a cornfield, and what must have been the strength of the hoes when nearly the whole continent was a wilderness.

Canadian Delegates Will Attend Dairy Congress

In Chicago Next Year

Plan For Making Ireland Independent

Lord Hugh Cecil Suggests Member of Royal Family For King.

Lord Hugh Cecil, member of the Privy Council of Great Britain, who is the guest of Lord Londonderry's family in Mount Stewart, County Down, has suggested a scheme by which Ireland would be made an independent kingdom, its king to be a member of the Windsor family, probably the Prince of Wales, to be appointed by the King.

Under the scheme there would be small Parliaments, one to be located in Belfast and the other in Dublin, and in addition, a "House of Estates" of 100 members. Complete fiscal autonomy would be given to Ireland, but there would be a levy imposed for Imperial defence in proportion to the sum contributed by Great Britain for that purpose.

Ireland, under the plan, would be a neutral state, have an army but no navy and in the event of war the King of Great Britain could suspend the Irish constitution. Irishmen in the colonies would have the right to choose whether they should be subjects of the Irish or British King. The scheme would be received by the Irish people with favor, and would be submitted to a constituent assembly. Some of the Southern Irish leaders, who are opposed to the scheme, have described it as "preposterous."

The significance of Lord Hugh's proposal comes from the fact that he is the guest of the Londonderry family, the greatest number of which are collected in the county of Down, more than to anybody else, the breaking up of Henry Grattan's Irish Parliament and the passing of the Act of Union in 1801 were due.

British Locomotive Contracts Awarded

Firm Received Order In Face of Keen Foreign Competition.

A short time ago it was recorded that a leading British firm had received a contract for the repair of a large number of locomotives for railways in Russia. This contract alone is estimated to provide employment for about two thousand men for some years, and since it has been awarded the same firm has secured an order for two hundred locomotives for the Belgian State Railways. A striking feature of this new order is that it was secured in the face of the keenest foreign competition. Success has been achieved on account not only of the moderate price quoted, but in view of the superior quality of British locomotives for efficiency and reliability.

Company Buys Standing Timber.

Announcement has been made that the Canadian Robert Dollar Company has purchased two hundred and fifty acres of standing timber near the town of Vancouver Island, for approximately half a million dollars. This makes a total of four hundred and fifteen million feet of timber bought by this company in the past year.

Airplane Great Time Saver.

The advantage of the use of airplanes in fisheries was illustrated recently when the chief inspector of the Fisheries and his party, four men from Vancouver to inspect the hatcheries at Anderson and Kennedy Lake, on Vancouver Island, accomplished a 400 mile trip in a few hours whereas it had previously taken about five days.

Feels As Burns Did.

Germany has appealed in vain to the pity of the British, and her appeals to the Washington Government have been ignored. For Germany must begin to feel as Burns did when he was subjected to kick discipline: "I felt that they were resolved 'on' my oppression."—Hamilton Herald.

Chinese Wear Ulieters.

Ulieters are worn by Chinese in Manchuria. The weather class of Chinese always were long outer garments of silk, worn over a long-sleeved shirt, and the long ulieters, besides affording warmth, protects the expensive silk clothing underneath.—Yonkers' Constitution.

Applies For Old Country.

About 6,000 barrels of apples were recently shipped to London, England, from Halifax, N.S.

There is probably no branch of agriculture in which Canada has made more progress in recent years than dairying. An opportunity will be afforded for the discussion of the subject how far this is the case, for in the summer is to be held at Chicago, Ill., the second international dairy congress at which there will be present officially appointed representatives from thirty to fifty different countries. At the sixth congress, held at Bern, Switzerland, in 1914, Mr. J. A. Rodick, Dominion Dairy and Cold Storage Commissioner, was Canada's representative, among a total of 890 delegates representing twenty-nine countries or states. The congresses are organized under the auspices of the International Dairy Federation, of which any person interested in dairying, corporation or association, can become a member on the payment of the annual fee, which at present is twenty francs. Papers are read at the congresses and the reports are published in English, French and two other languages. Already Mr. Rodick is engaged, by authority of the government, to be in charge of the Canadian delegation, in preparing for Canada's representation at next year's congress in Chicago. The questions to be discussed are which the heads of the dairy branch in every province will be invited to act. This committee will arrange for the questions to be discussed, the papers to be read as far as Canada is concerned. A pamphlet will be distributed to all delegates, among the delegates distributed in the dairy industry in this country. It is further proposed to establish in connection with the congress a bureau of information at which facts will be set forth regarding not only dairying in Canada, but agriculture generally, and the questions to be discussed are which the heads of the dairy branch in every province will be invited to act. This committee will arrange for the questions to be discussed, the papers to be read as far as Canada is concerned. A pamphlet will be distributed to all delegates, among the delegates distributed in the dairy industry in this country. It is further proposed to establish in connection with the congress a bureau of information at which facts will be set forth regarding not only dairying in Canada, but agriculture generally, and the questions to be discussed are which the heads of the dairy branch in every province will be invited to act. Big Half Price Sale of Millinery

All Hat Prices cut in half during June only. Come and get a real bargain while the sale lasts at the

Claresholm Millinery Store
Mrs. G. B. Foxcroft

J. Horace Smithy

Claresholm Chautauqua, June 21 to 27.

Herrings and Whales

At Sydney Inlet, on the west coast of Vancouver Island, the Tidewater Copper Co. are working some others. They say that the future wealth of Vancouver Island lies in copper. There is so much of it about. There is also placer gold in coast of the Fraser, and gold and silver quartz veins in the mountains. There is coal and iron—limonite and quantities of magnetite of Barren Lake. Country and up at Kitson Lake.

The Nootka Packing Co. have a plant in Nootka Sound where they can 2,000 cases a day in the season of salmon, herring and pilchard, for which latter they have more orders than they can fill. Their record catch was 25 tons of pilchard in one night.

Here is the Nootka tribe of Indians, where they have a wonderful and well-kept burial ground. Passing Nootka Sound by way of Texereira Inlet and so on to Nootka Cut Creek where there is a big Whaling Station, and this you may know by the hideous smell that greets you as you draw near. They kill the whales about thirty or forty miles out, blow them up with air and tow them back to the station. Every particle of the great fish is put to some useful purpose, whale-bone, fertilizer, whale-oil and some 2,000 cases of whale-meat a day. Each whale brings in a revenue of \$2,000 and a sperm-whale \$3,000.

At Kyquut Village in the Sound there is a large logging camp. Coming out of this into the open sea again, the coast-boat heads due north for Cape Cook off which is Bulwer Island where the sea-lions bask and bask and flop down off its

(1) Nootka Cannery and Sound. (2) Whale lying at Kyquut Whaling Station. sloping side into the sea with a great face and show of fright when the occasional boats pass by. Still north up this Quakwaw Sound, another fishing centre and quite a coast of the island where one may sometimes catch the mainland coast-boats, but this trail is so bad that the settlers prefer to use the west coast boats. Further north than this no boat goes. There are not enough settlers to make it worth while, though fishermen bring tales of sheltered coves with downland beaches where the spent breakers of the Pacific froth vainly for the laughter of the children that never come. And the pictures bring tales of thousands of acres of untouched timber and mountains unknown, unnamed, festooned guarding the secrets of their treasure-trove—H. G. W.

You Can't Beat the 1921 Chautauqua

There Are EIGHTEEN Big Events
In Six Joyous Days For You

JUST ONE GOOD THING AFTER ANOTHER

Chautauqua brings six days of wholesome entertainment, splendid lectures and inspiring music. Eighteen big events, all at a price so low as to appear almost unbelievable in these days of "sky-the-limit" costs. Three Dollars buys a Season Ticket admitting to every program of the week, if bought before the opening day.
